Fiddle Leaf Fig

Ficus Lyrata

Toxic

Tall, sculptural, and dramatic. This plant will flourish in the right conditions.

Spider Plant

Chlorophytum comosum

Non-toxic

The spider plant is so named because of its spider-like plants, or spiderettes, which dangle down from the mother plant like spiders...

Snake Plant

Sansevieria trifasciata

Non-toxic

Snake plant (or mother-in-law's tongue) is one of the most popular and hardy species of houseplants. It features stiff leaves that...

Philodendron

Philodendron

Toxic

Their leaves are typically large, green, and glossy, adding a touch of their native tropical jungles to your home.

Pothos

Epipremnum aureum

Toxic

This trailing vine, native to the Solomon Islands in the South Pacific, boasts pointed, heart-shaped green leaves that are sometimes...

Peace Lily

Spathiphyllum spp.

Non-toxic

A striking plant when used in mass display, the peace lily blooms in spring with long-lasting flower stalks that hover gracefully over...

Mexican snowball

Echeveria elegans

Non-toxic

Also commonly known as White Mexican Rose or Mexican Gem succulents, Mexican snowballs are characterized by thick, fleshy...

ZZ Plants

Zamioculcas zamiifolia

Toxic

Characterized by their shiny, oval-shaped deep green leaves, ZZ plants make excellent additions to any home or office.

Monstera

Monstera deliciosa

Toxic

Nicknamed the "swiss cheese plant", the quirky Monstera deliciosa is famous for its natural leaf holes. These holes are theorized to...

Ponytail palm

Beaucarnea recurvata

Non-toxic

Despite the common name and the appearance of the foliage, this is not a true palm, but rather a member of the Asparagaceae...

Bird's Nest Fern

Asplenium nidus

Non-toxic

Healthy plants can have fronds up to 5 feet long, but bird's nest ferns grown as houseplants typically have fronds that grow only...

Calathea Rattlesnake

Calathea lancifolia

Non-toxic

The plant can grow up to 30 inches tall, and the large leaves have a variegated pattern with various shades of greens and a wavy...

Monstera

Toxic

Monstera deliciosa

Details

Nicknamed the “swiss cheese plant”, the quirky Monstera deliciosa is famous for its natural leaf holes. These holes are theorized to maximize sun fleck capture and develop over time, as the plant matures. Sized to ship best, our large monstera arrives with room to grow as it adapts to your home’s conditions.

Toxicity

- Contains insoluble calcium oxalates
- Can cause oral irritation, intense burning and irritation of mouth, tongue and lips, excessive drooling, vomiting, difficulty swallowing.

If you suspect your pet may have ingested a potentially toxic substance, contact your local veterinarian as soon as possible.
